Subject: Questions for PCC and Panel

Figures from the annual report of 2022-2023 showed that Herts Constabulary Conducted 6949 stop searches in 2022. 457 of those were conducted in Welwyn Hatfield.
Data from [CrimeRate.co.uk](https://www.crimerate.co.uk) shows that Hatfield has the second highest crime rate in the county and the second lowest number of stop searches conducted in herts last year.

I'd like to ask David Lloyd and Panel why Hatfield, which is the second most dangerous town in Hertfordshire had the second lowest number of stop searches conducted by hertfordshire Constabulary between 2022 and 2023 and also if Herts PCC could tell residents a the reason why there's been a decline in stop and search numbers since he took office in 2012.

Rody Ribeiro
Welwyn Hatfield Resident and Campaigner.
