Purpose of report

The PCC has made an update report for the panel to show progress with the Police and Crime Plan as well as other matters the panel and the wider public will be interested in. The panel has received such reports at previous meetings and this one develops those received previously to give a broad picture of the issues the PCC is involved with as well as those previously reported. Members are invited to consider any changes that could be recommended to the PCC that would assist the Panel and the public to monitor performance.

In addition the Panel is invited to question the PCC on the report and if appropriate make recommendations relating to the performance reported.
