

HERTFORDSHIRE POLICE AND CRIME PANEL

PROGRESS REPORT OF THE PCC

Gavin Miles, Head of Legal Services
Broxbourne Borough Council

21 November 2013

RECOMMENDATIONS

- 1 That the report from the PCC is noted.
- 2 The Panel considers any recommendations it wishes to make to the PCC on the report.
- 3 The Panel considers any changes the PCC should be requested to make to the format of the report for the future.

Purpose of report

The PCC has made a report *Everybody's Business; Progress to Date* which is attached at appendix 'A'. The intention is that the PCC will provide a report in similar format to each meeting of the Panel when the timing is appropriate to allow the Panel to monitor performance generally and in particular against the policing plan. Clearly the PCC cannot routinely report everything that the Panel may wish to consider so information can be requested and reports made when required. However, it will assist the Panel and the public to see a rolling report in a format that can be compared over time to check progress against certain performance measures and narrative descriptions of work. Members are invited to consider any changes that could be recommended to the PCC that would assist the Panel and the public to monitor performance.

In addition the Panel is invited to question the PCC on the report and if appropriate make recommendations relating to the performance reported.
