Annual Report

There is no requirement for an annual report from the Panel but it is considered it may be helpful, particularly if members may be requested to report to their appointing authority of the Panel's activities. In addition, it could be distributed to other authorities and published to assist in informing the public of the work of the Panel.

A draft report is attached at Appendix 'C'. The Panel is invited to comment on the format and content of the report. Details of this meeting can be added to complete the information for the municipal year.
